## HAMPSHIRE & ISLE OF WIGHT ARMY CADET FORCE

---

### New Resuscitation Techniques

As most of you will be aware, the European Resuscitation Council has made significant changes to resuscitation techniques.

It is my intention to use the two weeks at Annual Camp to teach as many first aid trained personnel to be able to implement these changes. These changes must be in place for any courses for Cadets from 1 September 2006.

Personnel who have not attended the course that teaches the changes will not be eligible to teach or test cadets.

Company First Aid Reps should make me aware of any trained first aider in their Company who will not be at Annual Camp, so that we can agree on a programme of training for those concerned.

MI Taylor  
Major  
County First Aid Training Officer
